Button Click Assembly

Preparation (Inlay Kit Specific)

- Blank is pre-drilled.
- Brass tube is precut to 2.2".
- Glue tube into blank using 2 part epoxy only. No CA glue.
- Do NOT use a barrel trimmer on inlay blanks.
- Square ends using a stationary sanding disc only.
- Turn and finish to bushing diameter.

Exploded Parts Overview

Assembly Instructions

- Step 1 – Press Cap / Clip Assembly into one end of the barrel.
- Step 2 – Place spring onto refill tip. Insert refill and spring into nib assembly.
- Step 3 - Thread twist mechanism into nib assembly until snug.
(Mechanism is preset and non-adjustable.)
- Step 4 – Press nib assembly into open end of barrel until fully seated.
